

## What is in a fluency practice activity set?

The diagram illustrates the components of a fluency practice activity set, divided into two main sections: a teacher's guide page and a student display page.

**Teacher's Guide Page (Top Right):**

- Component of mathematical fluency reflected in the fluency connection:** Conexión de fluidez: *Un estudiante con fluidez puede aplicar rápidamente estrategias matemáticas de cálculo mental para sumar y restar números.*
- Mathematical topic and grade level for this set of fluency practice activities:** **Fluency Practice: Solving Addition and Subtraction Problems, Grade 3**
- Specific fluency practice activity title:** **Práctica de fluidez: Sumar, luego duplicar**
- Teacher notes describing how to facilitate each activity with students and any needed materials:** Diga: Vamos a usar nuestro entendimiento de la suma para sumar números y luego duplicar su suma usando el cálculo mental. Les daré dos números. Ustedes van a determinar la suma y luego a duplicarla. Por ejemplo, podría mostrarles: 38 y 24
- Tasks provided to use as prompts for this activity:** Ustedes escribirían en su pizarra blanca: "124."  
Expresiones iniciales posibles:
 

173 y 127	345 y 139	108 y 24
413 y 67	134 y 94	237 y 198
- Notas:** Space for teachers to record notes related to this activity, including implementation ideas, materials, student progress monitoring, etc.

**Student Display Page (Bottom):**

- Title of fluency practice activity:** Sumar, luego duplicar
- Up to two tasks per display page:**

173 y 127

345 y 139
- Display pages formatted to facilitate digital projection using large font and landscape orientation:** The page is designed with large, clear numbers and a landscape orientation for easy projection.
