

Table of Contents

Product Overview	i–x
Matter and Energy	1–46
3.5A	1–12
1. Physical Properties	
2. Reading Temperature	
3. M&M	
4. Measuring Magnetism	
5. Sink and Float	
6. Floating Mystery	
3.5B	13–25
7. Physical States of Matter	
8. Sorting States	
9. Describing States of Matter	
10. Before and After	
11. Solids vs. Liquids	
12. Presenting States of Matter	
3.5C	26–26
13. Hot or Cold	
14. Changing States of Matter	
15. Not Like the Others	
16. Predicting Change	
17. Sitting in the Sun	
3.5D	37–46
18. Beaker of Bird Seeds	
19. Four Corners	
20. Flower Bouquet	
21. Separating a Mixture	
22. Mixture Equations	

Table of Contents

Force, Motion, and Energy	47–80
3.6A	47–58
23. Energy in Motion	
24. Energy in Common	
25. Purposeful Energy	
26. Spreading or Squishing?	
27. Energy Alert	
28. Everyday Energy	
3.6B	59–68
29. Focus on Force	
30. Pushed and Pulled*	
31. Simple Structure	
32. How to Sort*	
33. Which Is True?	
3.6C	69–80
34. Seeing a Spring Scale	
35. Spring Scales	
36. What Happens Next?	
37. Jumping Jack	
38. Hard to Reach	
39. Forces in Action	

**For additional activities, see Warm Up Activities for 2017–2018. These activities feature content that will not be covered by the revised science TEKS after the 2017–2018 school year.*

Table of Contents

Earth and Space	81–151
3.7A.....	81–90
40. Weathering	
41. Odd One Out	
42. Decomposition	
43. Soil Formation	
44. Decaying Deposits	
3.7B.....	91–100
45. Rapid Changes	
46. Landslide	
47. Volcanic Eruptions	
48. What Happened?	
49. Wildfire	
3.7C (2018–2019); 3.7D (2017–2018).....	102–110
50. Why Wood?	
51. Cotton and Wool*	
52. Plants and Medicine*	
53. The Meaning of Conservation*	
54. Ways to Conserve*	
<i>*For additional activities, see Warm Up Activities for 2017–2018. These activities feature content that will not be covered by the revised science TEKS after the 2017–2018 school year.</i>	
3.8A.....	111–121
55. Comparing Wind Vanes	
56. Reading Rain Gauges	
57. Temperature	
58. Weather Record	
59. Weather Changes	
3.8B.....	122–131
60. Describing the Sun*	
61. Heat Needed*	
62. Plants Need Sunlight*	
63. Powering the Water Cycle	
64. The Sun’s Energy	
3.8C.....	132–141
65. Model Movement	
66. A True Statement	
67. Model Limitations	
68. Making a Model	
69. Model Illustration	
3.8D.....	142–151
70. Earth’s Solar System	
71. A Planet or Not	
72. Remember the Order	
73. Center of the Solar System	
74. Inner and Outer Planets	

Table of Contents

Organisms and Environments.....	152–203
3.9A.....	152–165
75. Population and Community	
76. Not Like the Others	
77. Characteristics of an Environment	
78. Desert Living	
79. Matching Characteristics	
80. Environmental Support	
3.9B.....	166–173
81. Which Direction?	
82. Predator or Prey?	
83. What Will Happen?	
84. What Is Missing?	
85. What Is Causing Change?	
3.9C.....	174–183
86. Vocabulary Connections	
87. Chain Reaction	
88. Days of Drought	
89. Flood Facts	
90. Cause and Effect	
3.10A.....	184–193
91. How Many Uses?	
92. It’s a Stretch	
93. Pelicans Have Pouches	
94. Thorns and Poison	
95. Hide and Seek	
3.10B (2018–2019); 3.10C (2017–2018)....	194–203
96. Stages of Life	
97. Animals vs. Plants	
98. Frogs vs. Lady Beetles	
99. Metamorphosis	
100. Investigating a Plant Life Cycle	

**For additional activities, see Warm Up Activities for 2017–2018. These activities feature content that will not be covered by the revised science TEKS after the 2017–2018 school year.*

Table of Contents

Warm Up Activities for 2017–2018	204–232
3.6B	204–207
30a. Is It Work?	
32a. Pulling with a Pulley	
3.7C	208–215
51a. What Am I?	
52a. Hills vs. Mountains	
53a. Matching Landforms	
54a. Label the Landforms	
3.8B	216–222
60a. Water Cycle	
61a. What’s Missing?	
62a. Water Cycle Poem	
3.10B	223–232
96a. Animal Characteristics	
97a. Plant Characteristics	
98a. Rummaging Raccoon	
99a. Chickens Come Running	
100a. Sharks and Seals
